PROFESSIONAL SUMMARY

Web developer with over 15 years of experience building and supporting high quality websites and applications. Passionate about problem-solving, learning, and collaborating with a team to find the best solutions possible. Experienced in both front-end and back-end programming languages and concepts, as well as database design and development.

EXPERIENCE

Freelance, Pittsboro, NC — *Lead Web Developer*

MAY 2021 - PRESENT

Build and support website solutions for a wide array of clients, mainly focusing on ecommerce. Responsible for gathering requirements, producing project plans, and managing all development and testing work in collaboration with graphic designers and clients.

Promosis, Inc., Remote (Marblehead, MA) — *Full Stack Web Developer*

AUGUST 2025 - APRIL 2026

Developed new features for custom web applications primarily using PHP, MySQL, and Bootstrap. Refactored code to improve security and maintainability, as well as troubleshooting and implementing bug fixes.

Zift Solutions, Inc., Cary, NC — *Senior Web Developer*

AUGUST 2016 - MAY 2021

Spearheaded the development of syndicated web pages and email templates utilizing AngularJS, jQuery, HTML, and CSS. Met with customers to gather requirements and scope custom development projects. Supervised and mentored a small team of junior developers.

DataClarity Corporation, Raleigh, NC — *Software Developer*

APRIL 2014 - JULY 2016

Developed UI/UX features in an enterprise-level data analytics application using Java/JSP, JavaScript, HTML, and CSS. Designed and developed JavaScript libraries to implement data visualizations and enhancements in IBM Cognos reports.
